The Results Companies to Host Grand Reopening Celebration and Hiring Event at Winter Haven Contact Center

Premier Customer Experience Provider to Hire Over 250 Additional Employees

FORT LAUDERDALE, FL, August 6, 2014 – The Results Companies, one of the world’s leading customer experience providers, recently announced it is hosting a grand reopening of its Winter Haven contact center located at 5300 Recker Highway. The grand reopening and ribbon cutting will take place on Tuesday, August 12th at 9:30 a.m.

The company also announced it will be hosting a hiring event on Wednesday, August 13th from 9:00 a.m. to 5:00 p.m. as it will be hiring over 250 customer service employees including 215 or 240 Health and/or Life Licensed Agents.

The grand reopening and hiring event marks the end of an extensive renovation project that has transformed the center and expanded the company’s ability to accommodate current and future growth needs for exceptional customer service and sales operations to their largely Fortune 500 Partner base.

“The center renovation and expansion of our workforce is yet another demonstration of our commitment to our employees and the surrounding community. We are happy for the opportunity to welcome more residents into the Results family,” said Oliver Pietri, Site Operations Director. Amy Kaufman, Vice President of Global Human Resources added, “We are excited about our continued partnership with the Winter Haven community and the role our Winter Haven employees will play in our future success delivering the exemplary service our Partners and their customers have come to expect from The Results Companies. Since our arrival over four years ago, we have been singularly focused on becoming the employer of choice in Winter Haven and a valued member of the community.”

The Results Companies’ Winter Haven location opened in 2010 and, with the additional opportunities, will employ over 430 residents.
